

Fourth Trimester Initiative

Our Purpose

A review of Kansas maternal deaths determined the majority of deaths occur between the time immediately after birth and the end of the first year. We also know the year after birth has many physical and emotional changes for the mother, baby, and family. Together we created the Fourth Trimester Initiative (FTI), a cutting-edge approach to study and improve the experience of our mothers and families in Kansas. Through this work we will engage and empower patients, their families and support system, providers, and Kansas communities to intentionally improve maternal health outcomes with our collective, inspired effort.
